ATTACH THE FENDERS

For ease of installation, fenders are interchangeable for left and right sides.

To attach fenders:

- Slot each fender into a wheel of arch.
- Ensure that the bottom of the fender locks securely into the open slot in the rear axle mount. You will hear a **CLICK** when fender is secured in place.

To remove fender:

- Pull fenders in an upward direction until fender detaches from rear axle mount.

ATTACH THE WHEELS

For ease of installation, both rear and front wheels are interchangeable for left and right sides, respectively.

To attach rear wheels:

- Push the rear wheel post into the rear wheel housing until **CLICK** is heard.
- Repeat on the opposite side.

To remove the rear wheels:

- Press the button located below wheel housing and pull the wheel outward until it is released.
- Repeat on opposite side.

To attach front swivel wheels:

- Push the front wheel post into the front wheel housing until **CLICK** is heard.
- Repeat on the opposite side.

To remove front swivel wheels:

- Press the button located below wheel housing and pull the wheel outward until it is released.
- Repeat on opposite side.

ATTACH WAGON FABRIC

To attach your wagon seat to the frame:

- Locate the 4 velcro loops at the base of the wagon seat (2 loops in the rear & 2 loops in the front).
- Loop and secure the velcro loops around the frame base.
- There will be 2 velcro loops that will need to loop through slots that are part of the bonus storage area.

After securing the velcro loops:

- Locate the 8 d-rings on the wagon seat.
- Loop the webbing straps around the front and rear seat backs.
- Loop the webbing straps around the side interiors of the seat backs.
- Fasten the d-rings to the fabric loops.

To remove the wagon fabric:

- Unfasten d-rings from fabric loops.
- Pull apart velcro loops to detach.

ATTACH THE CANOPY

To attach the canopy:

- Locate posts on each side of the canopy.
- Slide the canopy posts into side housing on the seat backs.
- Canopy is extendable and offers UPF 50+ protection.

To remove the canopy:

- Pull both sides of the canopy posts until the canopy fully releases from housings.

Pull forward to use canopy; push backwards to retract.

To open the peek-a-book window:

- Pull upwards on the window flap until it is in a fully opened position.
- To secure the position, roll up the window flap and loop toggle through the elastic cord to secure it in place.

ATTACH TRAY & CUPHOLDER

To attach the tray:

- Assemble the tray by attaching the 2 vertical posts to each side of the tray.
- Locate tray attachment points on frame. If there are caps on the attachment points, remove and store them away.
- Insert the tray posts at attachment points until **CLICK** is heard.

To remove the tray:

- Press on the buttons located on side posts and pull to release the tray.

To attach cupholder:

- Slide the cupholder into attachment points located on the handle bar.
- Push the cup holder in a downward motion to secure in place.
- Push the cup holder in a downward motion to secure in place.

To remove the cupholder:

- Pull the cupholder in an upward motion to release.

HARNESS

Before you place your child in the wagon, press the brake pedal down until it clicks into the locked position.

3-point harness

- Place your child in the wagon and position the crotch belt between your child's legs.
- Fasten both waist belts to the buckle on each side of the crotch belt until you hear a CLICK on both sides.

- Ensure the buckle is away from your child's skin to avoid a pinch when securing the buckle.
- Tighten the waist belt so that the harness is snug against your child.
- To tighten the waist belt, feed the anchored end of the waist belt up through the buckle to form a loop. Pull the free end of the waist belt.
- To loosen the waist belt, feed the free end of the waist belt up through the buckle to form a loop. Enlarge the loop by pulling on the end of the loop toward the buckle. Pull the anchored end of the waist belt to shorten the free end of the waist belt. Repeat this step to loosen the other waist belt.

IMPORTANT: Check and ensure the harness is securely attached by pulling it away from your child; the restraint system should remain securely fastened.

BRAKES

To engage brakes:

- Apply a light downward pressure on the bottom section of the linked brake lever located in the middle of the rear wheel axle.
- Check to make sure the brakes are in a fully locked position. The wagon should not move when pushed.

To release brakes:

- Apply a light downward pressure on the top section of the linked brake lever located in the middle of the rear wheel axle.

HOW TO FOLD

To fold your wagon frame:

- Remove any accessories attached to the wagon, including the canopy and snack tray.
- Locate the release button below each seat back.
- Push the buttons to release the seat back and push downwards.
- Pull the knob to release the handle bar and push downward.

Upright storage:

- To store you wagon upright, place on a hard and flat surface when using the standing storage position.

PUSH AND PULL MODES

Push mode:

- To set the wagon in push mode, pull the knob and lock the handle upright.

Pull mode:

- To set the wagon in pull mode, pull the knob to unlock and drop the handle.
